

SUCCESS STORY

At Revolution Office, we're committed to upgrading your copier/printer technology, improving service and significantly reducing costs...guaranteed! To show how it works, we're featuring the stories of a few recent clients.

SAVING MONEY WHILE SAVING SPACE

See how Revolution Office provided solutions that saved this school \$105k.

Hillbrook School Los Gatos was constrained in more ways than one: they struggled with high overage costs, space limitations, and multiple lease expirations on their under-performing copier/printer fleet. When Revolution Office proposed paying off existing leases and consolidating into a single money-saving agreement, it was clear that Hillbrook had found the answer.

Revolution Office studied usage data and upgraded the Hillbrook fleet with devices that fit their needs—and fit their space.

With the ideal devices for the job, Hillbrook now experiences improved reliability and is saving \$105K in the process.

Now enjoying the simplicity of a single invoice payment and automated toner replenishment, Hillbrook has additional resources to support their mission of developing their students' knowledge, skills, and confidence.

“We couldn't be happier with the simplicity and reliability that's resulted from working with Revolution Office. They saved us \$105k and took the time to truly understand our needs.”

— Margaret Randazzo
CFO & COO
