Established in 1926 by twelve individuals, Temple Israel of Hollywood stands as a historic reform congregation in the center of Los Angeles. Today, it thrives as a lively center of Jewish culture for nearly 1,000 families and individuals.

PROBLEM

As issues with their copier fleet led to frequent service calls during their busiest times, Temple Israel of Hollywood knew they needed a more efficient solution. They were dissatisfied with their current provider's devices and pricing. **Print materials often showed PostScript printing errors, and ordering supplies manually was becoming time-consuming.**

SOLUTION

Revolution Office upgraded their copier technology with Ricoh devices, a brand the temple had prior experience with and preferred. To ensure the temple never ran out of supplies, we set up an **automated toner replenishment program**, eliminating the need to order supplies themselves.

RESULT

With our recommendation, Temple Israel of Hollywood experienced a **38% cost savings** on their upgraded copier technology, as well as a **3.2 hour service response time and 98% uptime**. We also contributed an **unrestricted donation** to support their community events and school.
